Design with the Desert Richard Malloy, John Brock, Anthony Floyd, Margaret Livingston, Robert H. Webb, 2016-04-19 Typical development in the American Southwest often resulted in scraping the desert lands of the ancient living landscape, to be replaced with one that is human-made and dependent on a large consumption of energy and natural resources. This transdisciplinary book explores the natural and built environment of this desert region and introduces development tools for shaping its future in a more sustainable way. It offers valuable insights to help promote ecological balance between nature and

the built environment in the American Southwest-and in other ecologically fragile regions around the world.

Fun and Games Duane Swierczynski, 2011-06-20 The first of three explosive pulp thrillers arriving back-to-back from cult crime fiction sensation and Marvel Comics scribe Duane Swierczynski. Charlie Hardie, an ex-cop still reeling from the revenge killing of his former partner's entire family, fears one thing above all else: that he'll suffer the same fate.

Languishing in self-imposed exile, Hardie has become a glorified house sitter. His latest gig comes replete with an illegally squatting B-movie actress who rants about hit men who specialize

in making deaths look like accidents. Unfortunately, it's the real deal. Hardie finds himself squared off against a small army of the most lethal men in the world: The Accident People. It's nothing personal-the girl just happens to be the next name on their list. For Hardie, though, it's intensely personal. He's not about to let more innocent people die. Not on his watch.
