American Films Abroad Kerry Segrave,1997 While Hollywood contends that the domination of American films abroad is due to the quality of its product, the truth is that the major American movie studios have established a virtual worldwide monopoly on the distribution and exhibition of the film industry. The United States government has greatly aided Hollywood's effort's and continues to do so.The U.S. governemnt first became heavily involved with the film industry in 1916 when U.S. consuls were instructed to report on the market for American movies. The government, in turn, made this information available to the industry. Eight companies (MGM, Paramount, 20th Century-Fox, RKO, Warner Bros., Universal, United Artists, and Columbia) used the government information to establish a virtual cartel. This work examines the practices of this cartel in its various forms, how it came to dominate the industry worldwide, and the role the U.S. government has played in advancing its

monopolistic practices.

The Case for Heaven Lee Strobel,2021-09-14 Bestselling and award-winning author Lee Strobel interviews experts about the evidence for the afterlife and offers credible answers to the most provocative questions about what happens when we die, near-death experiences, heaven, and hell. We all want to know what awaits us on the other side of death, but is there any reliable evidence that there is life after death? Investigative author Lee Strobel offers a lively and compelling study into one of the most provocative topics of our day. Through fascinating conversations with respected scholars and experts--a neuroscientist from Cambridge University, a researcher who analyzed a thousand accounts of near-death experiences, and an atheist-turned-Christian-philosopher--Strobel offers compelling reasons for why death is not the end of our existence but a transition to an exciting world to come. Looking at biblical accounts, Strobel unfolds what awaits us after we take our last breath and answers questions like: Is there an afterlife? What is heaven like? How will we spend our time there? And what does it mean to see God face to face? With a balanced approach, Strobel examines the alternative of Hell and the logic of damnation, and gives a careful look at reincarnation, universalism, the

exclusivity claims of Christ, and other issues related to the topic of life after death. With vulnerability, Strobel shares the experience of how he nearly died years ago and how the reality of death can shape our lives and faith. Follow Strobel on this journey of discovery of the entirely credible, believable, and exhilarating life to come.

Leopoldstadt Tom Stoppard,2020-08-25 **Winner of the Tony Award for Best Play** Finally making its Broadway debut in a limited engagement run, Tom Stoppard's humane and heartbreaking Olivier Award-winning play of love, family, and endurance At the beginning of the twentieth century, Leopoldstadt was the old, crowded Jewish quarter of Vienna, a city humming with artistic and intellectual excitement. Stoppard's epic yet intimate drama centers on Hermann Merz, a manufacturer and baptized Jew married to Catholic Gretl, whose extended family convene at their fashionable apartment on Christmas Day in 1899. Yet by the time the play closes, Austria has passed through the convulsions of war, revolution, impoverishment, annexation by Nazi Germany, and the Holocaust, which stole the lives of 65,000 Austrian Jews alone. From one of today's most acclaimed playwrights, *Leopoldstadt* is a human and heartbreaking drama of literary brilliance, historical verisimilitude, and powerful emotion.

Watching Skies Mark O'Connell,2018-05-30 Mark O'Connell didn't want to be Luke Skywalker, He wanted to be one of the mop-haired kids on the Star Wars toy commercials. And he would have done it had his parents had better pine furniture and a condo in California. Star Wars, Jaws, Close Encounters of the Third Kind, E.T. The Extra Terrestrial, Raiders of the Lost Ark and Superman didn't just change cinema - they made lasting highways into our childhoods, toy boxes and video stores like never before. In Watching Skies, O'Connell pilots a gilded X-Wing flight through that shared universe of bedroom remakes of Return of the Jedi, close encounters with Christopher Reeve, sticker album swaps, the trauma of losing an entire Stars Wars

figure collection and honeymooning on Amity Island. From the author of Catching Bullets - Memoirs of a Bond Fan, Watching Skies is a timely hologram from all our memory systems. It is about how George Lucas, Steven Spielberg, a shark, two motherships, some gremlins, ghostbusters and a man of steel jumper a whole generation to hyperspace.

Rampage Nation Louis Klarevas,2016-08-23 In the past decade, no individual act of violence has killed more people in the United States than the mass shooting. This well-researched, forcefully argued book answers some of the most pressing questions facing our society: Why do people go on killing sprees? Are gun-free zones magnets for deadly rampages? What can we do to curb the carnage of this disturbing form of firearm violence? Contrary to conventional wisdom, the author shows that gun possession often prods aggrieved, mentally unstable individuals to go on shooting sprees; these attacks largely occur in places where guns are not prohibited by law; and sensible gun-control measures like the federal Assault Weapons Ban—which helped drastically reduce rampage violence when it was in effect—are instrumental to keeping Americans safe from mass shootings in the future. To stem gun massacres, the author proposes several original policy prescriptions, ranging from the enactment of sensible firearm safety reforms to an overhaul of how the justice system investigates potential active-shooter threats and prosecutes violent crimes. Calling attention to the growing problem of mass shootings, Rampage Nation demonstrates that this unique form of gun violence is more than just a criminal justice offense or public health scourge. It is a threat to American

security.
