Four Thousand Weeks Oliver Burkeman,2021-08-10 AN INSTANT NEW YORK TIMES BESTSELLER Provocative and appealing . . . well worth your extremely limited time. —Barbara Spindel, The Wall Street Journal The average human lifespan is absurdly, insultingly brief. Assuming you live to be eighty, you have just over four thousand weeks. Nobody needs telling there isn't enough time. We're obsessed with our lengthening to-do lists, our overfilled inboxes, work-life balance, and the ceaseless battle against distraction; and we're deluged

with advice on becoming more productive and efficient, and “life hacks” to optimize our days. But such techniques often end up making things worse. The sense of anxious hurry grows more intense, and still the most meaningful parts of life seem to lie just beyond the horizon. Still, we rarely make the connection between our daily struggles with time and the ultimate time management problem: the challenge of how best to use our four thousand weeks. Drawing on the insights of both ancient and contemporary philosophers, psychologists, and spiritual teachers, Oliver Burkeman delivers an entertaining, humorous, practical, and ultimately profound guide to time and time management. Rejecting the futile modern fixation on “getting everything done,” *Four Thousand Weeks* introduces readers to tools for constructing a meaningful life by embracing finitude, showing how many of the unhelpful ways we've come to think about time aren't inescapable, unchanging truths, but choices we've made as individuals and as a society—and that we could do things

differently.

Promise Land Jessica Lamb-Shapiro,2014-01-07 “A funny yet surprisingly nuanced look at the legends and ideas of the self-help industry” (People, 3.5 stars), *Promise Land* explores the American devotion to self-improvement—even as the author attempts some deeply personal improvements of her own. Raised by a child psychologist who was himself the author of numerous self-help books, as an adult Jessica Lamb-Shapiro found herself both repelled and fascinated by the industry: did all of these books, tapes, weekend seminars, groups, posters, t-shirts, and trinkets really help anybody? Why do some people swear by the power of positive thinking, while others dismiss it as so many empty promises? *Promise Land* is an irreverent tour through the vast and strange reaches of the world of self-help. In the name of research, Jessica attempted to cure herself of phobias, followed *The Rules* to meet and date men, walked on hot coals, and even attended a self-help seminar for writers of self-help books. But the more she delved into the history and practice of

self-help, the more she realized her interest was much more than academic. Forced into a confrontation with the silent grief that had haunted both her and her father since her mother's death when she was a baby, she realized that sometimes thinking you know everything about a subject is a way of hiding from yourself the fact that you know nothing at all. "A jaunty, cannily written memoir" (Chicago Tribune), *Promise Land* is cultural history from "a witty and enjoyably self-aware writer...Jessica Lamb-Shapiro's talent as a storyteller is undeniable" (The New York Times Book Review).

Change Anything Kerry Patterson, Joseph Grenny, David Maxfield, Ron McMillan, Al Switzler, 2011-04-11 A stunning approach to how individuals can not only change their lives for the better in the workplace, but also their lives away from the office, including (but not limited to) finding ways to improve one's working relationship with others, one's overall health, outlook on life, and so on. For example, why is it that 95% of all diet attempts fail? Why do New Year's Resolutions last no more than a few days? Why can't people with good intentions seem to make consistent and positive strides? Based upon the latest research in a number of psychological and medical fields, the authors of *Change Anything* will show that traditional will-power is not necessarily the answer to these strivings, that people are affected in their behaviors by far more subtle influences. *Change*

Anything shows how individuals can come to understand these powerful and influential forces, and how to put these forces to work in a positive manner that brings real and meaningful results. The authors present an array of everyday examples that will change and truly empower you to reexamine the way you go about your business and life.

Living Like You Mean It Ronald J. Frederick, 2009-03-03 In LIVING LIKE YOU MEAN IT, author Ronald J. Frederick, does a brilliant job of

describing why people are so afraid of their emotions and how this fear creates a variety of problems in their lives. While the problems are different, the underlying issue is often the same. At the core of their distress is what Dr. Frederick refers to as feelings phobia. Whether it's the experience of love, joy, anger, sadness, or surprise, our inborn ability to be a fully feeling person has been hijacked by fear—and it's fear that's keeping us from a better life. The book begins with a questionnaire-style list that help readers take an honest look at themselves and recognize whether and how they are afraid of their feelings. It then moves on to explore the origins of fear of feeling and introduces a four-part program for overcoming the fear: (1) Become aware of and learn to recognize feelings—anger, sadness, joy, love, fear, guilt/shame, surprise, disgust. (2) Master techniques for taming the fear. (3) Let the feeling work its way all the way through to its resolution. (4) Open up and put those feelings into words and communicate them confidently. With wisdom, humor, and compassion, the book uses stories and examples to

help readers see that overcoming feelings phobia is the key to a better life and more fulfilling relationships.

10% Happier Dan Harris, 2014-03-11 #1 New York Times

Bestseller REVISED WITH NEW MATERIAL Winner of the 2014 Living Now Book Award for Inspirational Memoir An enormously smart, clear-eyed, brave-hearted, and quite personal look at the benefits of meditation. —Elizabeth Gilbert Nightline anchor Dan Harris embarks on an unexpected, hilarious, and deeply skeptical odyssey through the strange worlds of spirituality and self-help, and discovers a way to get happier that is truly achievable. After having a nationally televised panic attack, Dan Harris knew he had to make some changes. A lifelong nonbeliever, he found himself on a bizarre adventure involving a disgraced pastor, a mysterious self-help guru, and a gaggle of brain scientists. Eventually, Harris realized that the source of his problems was the very thing he always thought was his greatest asset: the incessant, insatiable voice in his head, which had propelled him through the ranks of a hypercompetitive business, but had also led him to make the profoundly stupid decisions that provoked his on-air freak-out. Finally, Harris stumbled upon an effective way to rein in that

voice, something he always assumed to be either impossible or useless: meditation, a tool that research suggests can do everything from lower your blood pressure to essentially rewire your brain. 10% Happier takes readers on a ride from the outer reaches of neuroscience to the inner sanctum of network news to the bizarre fringes of America's spiritual scene, and leaves them with a takeaway that could actually change their lives.

The Art of Self-Improvement Anna Katharina Schaffner, 2021 A brilliant distillation of the key ideas behind successful self-improvement practices throughout history, showing us how they remain relevant today Schaffner finds more in contemporary self-improvement literature to admire than criticize. . . . [A] revelatory book.-- Kathryn Hughes, Times Literary Supplement Self-help today is a multi-billion-dollar global industry, one often seen as a by-product of neoliberalism and capitalism. Far from being a recent phenomenon, however, the practice of self-improvement has a long and rich history, extending all the way back to ancient China. For millennia,

philosophers, sages, and theologians have reflected on the good life and devised strategies on how to achieve it. Focusing on ten core ideas of self-improvement that run through the world's advice literature, Anna Katharina Schaffner reveals the ways they have evolved across cultures and historical eras, and why they continue to resonate with us today. Reminding us that there is much to learn from looking at time-honed models, Schaffner also examines the ways that self-improvement practices provide powerful barometers of the values, anxieties, and aspirations that preoccupy us at particular moments in time and expose basic assumptions about our purpose and nature.

High Performance Habits Brendon Burchard, 2017-09-19 THESE HABITS WILL MAKE YOU EXTRAORDINARY. Twenty years ago, author Brendon Burchard became obsessed with answering three questions: 1. happy on their journey? 3. What motivates people to reach for higher levels of success in the first place, and what practices help them improve the most After extensive original research and a decade as the world's leading high performance coach, Burchard found the answers.
