Made Which Can Be Easily Performed In School Laboratory.

* An Appendix Describing Various Chemical Hobbies Is Given Which Will Be Extremely Helpful To The Students For The PROJECTS - NCERT 1. Title. Study the variation in the

amount of oxalate ions in guava fruit at different stages of

ripening. Objective. The objective of this project is to

investigate the variation in the amount of oxalate ions

present in guava at different stages of its ripening (i.e.

unripe, parially ripe and fully ripe). Brief Procedure.

The objectives of the project work are to enable learners to: Probe deeper into personal enquiry, initiate action and reflect on knowledge and skills, views etc. acquired during the course of class XI-XII . Analyse and evaluate real world scenarios using ... **PROJECTS BACKGROUND INFORMATION ABOUT ...**

laboratory, in the field, or at home constitutes an investigatory project. A project may be as simple as collection of samples of minerals and it may be as difficult as developing an original indigenous process for the production of a chemical. Some of the projects can be completely theoretical and involve only the library work. *Projects (corrected on 18-08-08) - NCERT* A study to compare the quantity of caesin present in different samples of milk. To

compare the quality of different samples of milk by finding out quantity of casein present in them. Take 200 mL of each sample of milk in separate 500 mL beakers. Heat the milk samples upto 50 – 60°C. **Chemistry Investigatory Projects Class 12** term-wise syllabus for Board Examinations to be held in the academic session 2021-22 for class 12. Chemistry Investigatory Projects Class 12 (Download Only) * A Fairly Large Number Of Investigatory Projects Covering Various Topics Are Given. Selection Of Projects Is Carefully Made Which Can Be Easily Performed In School Laboratory. *CBSE Guidelines to Prepare a Good Project* Make a complete work plan as to how you will conduct your experiment or prepare your model. Your plan should include the following: The purpose, aim of your experiment and the scientific principle involved; The variable or the things that you are going to change during the experiment to evolve a new concept; [investigatory project work - NCERT](#) The operational aspects of doing a project include choosing a hypothesis or problem to be investigated, collecting data in a designed manner, analysing the data in a scientific way, drawing conclusions which are justified and discussing the results in the light of known knowledge and bringing out its importance.
