laboratory, in the field, or at home constitutes an investigatory project. A project may be as simple as collection of samples of minerals and it may be as difficult as developing an original indigenous process for the production of a chemical. Some of the projects can be completely theoretical and involve only the library work. *Special Internal Assessment/ Practicals/Projects* 1. The objectives of the project work are to enable learners to: Probe deeper into personal enquiry, initiate action and reflect on knowledge and skills, views etc. acquired during the course of class XI-XII . Analyse and evaluate real world scenarios using ...
